Artist Spotlight – Larysa Jaye

Bio:

Larysa Jaye was a Nashville-based powerhouse whose sound blended country, gospel, soul, and roots music. Her voice turned heads. Her presence turned hearts. Before her unexpected passing in December of 2024, she had already become a local favorite known for her effortless stage charisma, authenticity, and genre-blurring brilliance.

Legacy:

Rather than letting her music disappear like so many lost creatives before her, her older brother, who goes by the pen name author C.M. James and an entrepreneur, founded *C.M. Jaye Music* to preserve and elevate her voice.

But it didn't stop there.

Larysa didn't just dream of singing; she dreamed of building something. She had a heart for helping other up-and-coming artists, especially those who didn't fit the mold. That same vision now drives the label's mission today: to create space for real talent, raw voices, and timeless music.

“She wanted to build a label someday. So, I’m building one for her, and for the voices like hers that deserve to be heard. - C.M. James

This track is more than just a posthumous release. It’s a declaration of uniqueness, of artistry, and of a voice that refuses to be forgotten.
